January 11, 2001

Dear Jim Gault,

Thank you for all of your work on our new office. The three Richard Wilcox Mobile systems work beautifully. The track and ramp system and the files work well and we have had no problem with them to date. We would be happy to be a reference for you for any others who may be interested in your product.

Sincerely,

Susan Petersen  
Office Manager, Utah Bone and Joint Center
